

COLUMNS

FROM THE GROUND UP

STRONGER, FASTER, AND MORE BEAUTIFUL

Culpeper laminated timber columns offer the desirable appearance of traditional solid wood timbers without the associated cost and potential warping or splitting. Laminated timber columns are also lighter, easier to handle, and much less likely to twist and crack than traditional solid columns. Treated for ground contact, they can be used in place of fiberglass or aluminum columns for unrivaled strength and a beautiful, clean finish.

FEATURES AND BENEFITS

- Ready for immediate installation
- Paint, stain, or seal without delay
- Made from Southern Pine
- Sturdy and lightweight
- Limited warranty against damage from termites and fungal decay
- Greater load-carrying capacity than solid timbers
- Easier to install than solid timbers
- Less likely to twist
- Strength ratings outperform composite and PVC options
- Kiln dried after treatment
- Hollow core to hide connections and wiring
- End sealed with a hybrid emulsion product
- Treated to 0.15 retention for ground contact
